

Dear IMO participants!

Due to the virtual format of the IMO the parade of teams will also be virtual. We ask you to shoot a short video for the IMO Opening ceremony. Video should be between 3 and 10 seconds in horizontal format, 1920x1080. We ask you all together shout out the name of your country at the same time. We understand the serious situation of self-isolation in the world, but if you have a chance to shoot this video near a significant place in your country/ territory, it will be very good. If you are in different places and can't meet together, please do this video in Zoom or via skype. It's important to see the whole team together with leader, deputy leader and observers! One video from each country or territory.

Please send it until 13 September on this address: ceremonies@imo2020.ru

If for some reason you can send a video later, we will of course look forward to it! But please leave us time to mount a beautiful opening ceremony for you! Therefore, we ask you to send your videos as soon as possible.

You can send the video itself or a link. Important point: in the subject of the message be sure to specify the name of your country / territory in English. More than 100 countries are participating in IMO 2020. We would not like to make mistakes and confuse the name of the country/ territory and the video!

IMO 2020 Organizing committee
